Fire-proof, Water-proof, Durable, Economical and Ornamental. A roof may be covered with a very chesp shin-gle, and by application of this state be made to last from 20 to 25 years. Old roofs can be patched and coated, looking much better, and lasting longer than the new shingles without the state, for

One-third the Cost of Reshingling.

The expense of slating new shingles is only about the cost of simply laying them. The paint is rine-rhoof against sparks of flying em-bers, as may easily be tested by any one. IT STOPS EVERY LEAK,

And for tiner iron has no equal, as it expands by heat, contracts by cold, and MEYER CRACKS nor scales. Roofs covered with Tar Sheating Felt can be made water-tight at a small ex-pense, and preserved for many years. This Slate Paint is EXTREMELY CHEAP. Two gallons will cover a hundred square feet of shingle roof, while on tin, iron, felt, matched boards, or any smooth surface, from two quarts to one gallon are required to 100 square feet of surface, and although the Paint has a heavy body it is easily applied with a brush.

No Tar is used in this Composition, Therefore it neither cracks in Winter, nor runs Therefore it neither cracks in Winter, nor runs in Summer.

On decayed shingles it fills up the holes and pures, and gives a new substantial roof that will last for years. Curater or warrers shingles it brings to their places, and keeps them there. It fills up all holes in Felt roofs, stops the leaks—and aithough a slow dryer, rain does not affect its few hours af er applying. As nearly all paints that are black contain tar, be sure you obtain our genuine article, which (for shingle roofs) is
